PROFESSIONAL SUMMARY

Product-focused professional with **7+ years** driving user-centric solutions and scalable delivery for enterprise Salesforce platforms across **Banking, Telecom, and Consumer Goods**. Certified Product Manager (CSPO, A-CSPO, CAPM, ICPM) with proven expertise in **product discovery (JTBD), roadmap definition, and end-to-end lifecycle management**. Leveraging quality engineering foundation to ship high-impact features while systematically validating product-market fit. Seeking **Associate Product Manager** role to own product strategy and deliver measurable business outcomes.

KEY COMPETENCIES

Product Strategy & Discovery

Strategic roadmapping using **Business Model Canvas, Competitive Analysis, and Value Proposition** frameworks

User research methodologies: **Jobs-to-be-Done (JTBD), Persona Definition, Customer Journey Mapping, User Interviews**

Design execution: **User Flow Diagrams, User Stories with Acceptance Criteria, Wireframing** (Figma, Lovable)

AI-powered market research: **Gemini, ChatGPT, Perplexity** for trend analysis and competitive insights

Domain Expertise

Banking (FSC Cloud), Telecom (OSS & BSS), Consumer Goods (TPM), CPQ implementations

Technical & Tools

Agile/Scrum, Jira, Confluence, Azure DevOps, HP ALM, Figma, Postman (API Testing), Tableau, SQL, MS Excel

PRODUCT & TECHNICAL CERTIFICATIONS

Product Management: Advanced Certified Scrum Product Owner (A-CSPO) | Certified Scrum Product Owner (CSPO) | Certified ScrumMaster (CSM) | Certified Associate Product Manager (CAPM) | International Certificate in Product Management (ICPM)

Salesforce: Trailhead All Star Ranger | OmniStudio Developer & Consultant | App Builder | AI Associate | Agentforce Specialist

PROFESSIONAL EXPERIENCE

SALESFORCE INDIA

Dec 2021 – Present

Solution Consultant – ANZ Banking Project (Salesforce Financial Services Cloud)

Aug 2023 – Present

- Product Strategy & Roadmap:** Co-owned quarterly feature roadmap for FSC implementation serving **10,000+ banking users**; defined prioritization framework balancing compliance requirements with user needs, resulting in **on-time delivery of 12 features across 4 releases**
- End-to-End Product Lifecycle:** Drove sprint planning to production deployment for loan origination module, **reducing cycle time from 6 weeks to 4 weeks** through optimized acceptance criteria and stakeholder alignment
- User-Centric Validation:** Led UAT with **50+ business users** across 3 cohorts; identified and resolved **35% of critical usability issues pre-launch**, achieving **92% user satisfaction score** and reducing **post-deployment defects by 40%**

- **Data-Driven Decision Making:** Analyzed user feedback and adoption metrics using Tableau dashboards; recommended feature enhancements that **increased daily active users by 25%** within 2 months of launch
- **Stakeholder Management:** Managed cross-functional alignment across Product, Engineering, Compliance, and Security teams; facilitated bi-weekly demos and gathered requirements from **15+ stakeholder groups**

QA Consultant – AT&T CPQ Project (Sales Cloud)

Dec 2021 – Aug 2023

- **Requirements Translation:** Partnered with Product Owners to transform complex business requirements into **80+ detailed user stories** with acceptance criteria for CPQ implementation, enabling parallel development across **3 scrum teams**
- **UX Collaboration:** Co-designed user flows with UI-UX team using Figma; iterated on **15+ prototypes** based on user feedback, **reducing quote configuration time by 30%** and improving sales rep efficiency
- **Agile Delivery Leadership:** Actively participated in daily scrums and retrospectives; identified process bottlenecks and proposed solutions that **improved team velocity by 18%** over 3 sprints
- **Feature Ownership:** Owned end-to-end delivery of discount approval workflow affecting **\$5M+ annual contract value**; coordinated testing, UAT, and training materials ensuring **zero production incidents** at launch

ACCENTURE

Dec 2017 – July 2021

Test Engineer – Consumer Goods Cloud (TPM) Product Engineering

Mar 2019 – July 2021

- **Product Quality Strategy:** Designed and executed comprehensive test strategies for Trade Promotion Management (TPM) features; ensured **98% test coverage** and **zero P1 defects** in production across **6 releases**
- **Cross-Functional Partnership:** Collaborated with Business Analysts and Developers to validate requirements and optimize test scenarios; **reduced requirement ambiguity by 45%** through structured acceptance criteria reviews
- **Process Improvement:** Introduced automated regression suite using Salesforce DX, **reducing manual testing effort by 60%** and enabling faster release cycles

Shiftleft Analyst – British Telecom (Siebel CRM)

Dec 2017 – Mar 2019

- **Large-Scale Platform Delivery:** Contributed to OSS & BSS telecom platform modernization project; executed end-to-end quality assurance for customer billing and service provisioning modules
- **Foundation Building:** Developed expertise in Agile and Waterfall methodologies; created detailed test plans covering Functional, Regression, Database, and Sanity Testing

EDUCATION

B.Tech – Veer Surendra Sai University of Technology (formerly UCE, Burla) | **8.7 CGPA**

12th – KIIT Science College, Bhubaneswar | **78%**
