PROFESSIONAL EXPERIENCE

SALESFORCE INDIA — **Dec 2021 – Present**

Quality Consultant | Acting Product Owner

Project: ANZ Aegis Transformers (Banking) | Aug 23 – Present

Description: Digital transformation for ANZ Bank involving Financial Services Cloud.

- **Backlog & Requirement Management:** Partnered with Product leadership to refine a backlog of 50+ items, reducing sprint creep by 15% and ensuring 100% "Ready" status for engineering teams.
- **Stakeholder & Release Management:** Led Production Support for the Release Candidate, reducing UAT cycle time by 3 days through streamlined defect prioritization.
- **Stakeholder Communication:** Managed stakeholder expectations for a $2M digital transformation project, communicating roadmap progress and risks to C-level executives.
- **Cross-Functional Leadership:** Acted as the primary liaison between the development squad and ticket owners to resolve blockers, facilitating faster feature delivery.

Project: AT&T Plums (Telecom) | Dec 21 – Aug 23

Description: CPQ implementation for AT&T, covering Quote-to-Cash, Contract creation, and Order generation.

- **Product Analysis:** Partnered with Product Owners to gather, analyze, and document business requirements for complex Telecom workflows (CPQ, Order Generation).
- **UI/UX Collaboration:** Worked closely with the Design team to review Figma prototypes, validating usability and ensuring alignment with technical feasibility before development began.
- **Scrum Process Ownership:** Proactively drove Scrum calls, Daily Stand-ups, and Demos to clarify requirements and prioritize scope for upcoming sprints.
- **User Advocacy:** Defined the user journey for complex CPQ workflows, utilizing Figma for prototyping which reduced engineering rework by 20%.

ACCENTURE

Dec 2017 – Aug 2021

Shiftleft Analyst - QA Engineer

Project: Accenture CAS Product Engineering (Consumer Goods) | Mar 19 – July 21

Description: Trade Promotion Management platform enabling revenue forecasting and profitability analysis (now Salesforce Consumer Goods Cloud).

- **Domain Logic Validation:** Gained deep functional knowledge of Trade Promotion Management (TPM) revenue forecasts to validate complex pricing logic against business needs.
- **Design Partnership:** Interacted with Business Analysts during the design phase to define test strategies that aligned strictly with business requirements, preventing scope creep.
- **Data Migration Strategy:** Managed data migration requirements from legacy databases to Salesforce using Data Loader, ensuring data integrity for end-users.

Project: British Telecom - Retail | Dec 17 – Mar 19

Description: Siebel CRM implementation for telecom agent to place network product order.

- **Defect & Quality Management:** Managed the defect lifecycle using HP ALM, prioritizing critical issues with the development team to ensure product stability.
- **Requirement Mapping:** Mapped test cases directly to Business Requirement Documents (BRD) to ensure 100% traceability of features to business needs.
