IMPACT SNAPSHOT

EXPERIENCE

Solution Consultant — ANZ Banking (Financial Services Cloud)

Salesforce India

08/2023 – Present

- Owned the roadmap:** Co-owned the quarterly product roadmap for an FSC platform serving **10,000+ banking users**, defining a prioritization framework that made explicit **compliance-vs-speed trade-offs** and delivered **12 features across 4 releases on time**.
- Shipped faster:** Led the loan-origination module from discovery to production, **cutting delivery cycle time from 6 to 4 weeks (33%)** through sharper acceptance criteria and stakeholder alignment.
- Grew adoption:** Turned Tableau adoption insights into a prioritized enhancement set that **lifted daily active users 25%** within 2 months of launch.
- Validated with users:** Ran discovery and UAT with **50+ users** across 3 cohorts, resolving **35% of critical usability issues pre-launch** for a **92% satisfaction score** and **40% fewer post-release defects**.
- Led cross-functionally:** Aligned Product, Engineering, Compliance, and Security across **15+ stakeholder groups**, running bi-weekly demos to keep delivery tied to business goals.

QA Consultant — AT&T CPQ (Sales Cloud)

Salesforce India

12/2021 – 08/2023

- Defined the "what":** Translated complex business requirements into **80+ user stories** with acceptance criteria, unblocking parallel delivery across **3 scrum teams**.
- Improved the experience:** Co-designed user flows in Figma and iterated on **15+ prototypes**, **reducing quote-configuration time 30%** and improving sales-rep efficiency.
- Owned a high-value feature:** Drove end-to-end delivery of the discount-approval workflow affecting **\$5M+ annual contract value**, achieving **zero production incidents** at launch.
- Raised team velocity:** Diagnosed process bottlenecks and drove fixes that **improved velocity 18%** over 3 sprints.

SUMMARY

Product Consultant with **8+ years** shipping enterprise Salesforce solutions across **Banking, Telecom, and Consumer Goods**. I own products end-to-end — from discovery and roadmap to launch and iteration — translating customer needs into prioritized backlogs and shipping features that move **adoption, cycle time, and revenue**. Certified Product Owner & Manager (A-CSPO, SAFe Agilist, SAFe POPM) who pairs deep platform expertise with a quality-engineering foundation to de-risk delivery and validate product-market fit with data.

SKILLS

PRODUCT STRATEGY

Product roadmap & lifecycle ownership

Business Model Canvas

Competitive & market analysis

Value proposition

MVP definition & product-market-fit validation

DISCOVERY & USER RESEARCH

Jobs-to-be-Done (JTBD) Personas

Customer journey mapping User interviews

Usability testing (UAT)

EXECUTION & DELIVERY

Backlog prioritization, refinement & trade-off analysis

Story splitting & estimation

User stories & acceptance criteria

KPI & OKR definition

Wireframing & user flows (Figma, Lovable)

Sprint planning, reviews & retrospectives

Stakeholder management & cross-functional leadership

DATA & AI

Product analytics & KPIs (Tableau, SQL)

AI-assisted research (Gemini, ChatGPT, Perplexity)

Product Quality Engineer — Consumer Goods Cloud (TPM)

Accenture

03/2019 – 07/2021

- **De-risked releases:** Owned test strategy for Trade Promotion Management features, delivering **98% coverage** and **zero P1 defects** across **6 releases**.
- **Sharpened requirements:** Partnered with BAs and developers to **cut requirement ambiguity 45%** through structured acceptance-criteria reviews.
- **Scaled delivery:** Introduced an automated regression suite (Salesforce DX) that **cut manual testing effort 60%** and sped up release cycles.

Shift-Left Analyst — British Telecom (Siebel CRM, OSS/BSS)

Accenture

12/2017 – 03/2019

- **Delivered at scale:** Supported an OSS/BSS telecom modernization program, owning QA for customer billing and service-provisioning modules.
- **Built the foundation:** Developed Agile and Waterfall fluency and authored test plans spanning Functional, Regression, Database, and Sanity testing.

AI PROJECTS

15+ shipped & deployed · Portfolio: asankhua.github.io/pm-portfolio · github.com/asankhua

RAG Mutual-Fund FAQ Chatbot (React · Groq · RAG)

RAG chatbot for HDFC mutual funds delivering **source-attributed answers** with daily data refresh.

Booking Advisor Voice Agent (Voice AI · Silero VAD · MCP · Google Calendar)

Multilingual voice assistant that schedules advisory calls, generates Meet links, and logs to Google Docs for compliance.

App-Review Insights Analyzer (Python · Groq · Gemini · MCP · Resend)

Distills Play Store reviews into **weekly one-pager insights** via automated, scheduled reporting.

Zomato AI Recommender (Python · Groq · React · Streamlit)

AI restaurant recommender for Bangalore with **personalized filtering** by locality, rating, price, and cuisine.

Engineer Toolkit (Client-side SPA)

Single-page app of curated **AI prompts across the full SDLC**, with dark mode and global search.

Capital Eye — Market Agent (Python · Groq Llama · Multi-agent · MCP)

Multi-agent stock-analysis system blending fundamental, technical, and sentiment signals for Indian markets.

MeetingPro AI (JavaScript · AI meeting analysis)

Converts meeting notes into **structured user stories, test cases, and technical blueprints**.

LLM prototyping — RAG & multi-agent (Cursor, Windsurf, Claude Code, SEAP)
